Frank has been with Markosky for over 6 years and has over 22 years of industry experience. His experience includes preliminary and final design of new and replacement structures; reviews of structure submissions; project management and delivery; and oversight and performance of various other design functions including roadway, hydraulic and environmental tasks. Frank is an established leader at Markosky with a wide range of knowledge of project requirements and mentors design staff and newer Project Managers. He is active in various industry organizations and has developed an excellent reputation with PennDOT, the PA Turnpike and other agencies. In this new role, Frank will be assisting with various aspects of management of our Structures and Bridge Inspection Department with an emphasis on the design side of the Department. He will help with various management tasks such as project and staff scheduling, business development, and reviews of project deliverables while continuing his project management and design responsibilities.
