CORE COMPETENCIES & SERVICES

THE MARKOSKY ENGINEERING GROUP, INC. Markosky has built long lasting relationships by placing importance on collaboration with our clients and team members. We know that the best ideas and client solutions come from different perspectives: internal team members, diverse technical disciplines, clients, owners, and outside experts.

Markosky has team of professionals who are experts in their fields and have a thorough understanding of ODOT transportation engineering and environmental standards and practices. Our experts are licensed in various states and provide transportation roadway and structural design engineering services, environmental science, archaeology, historic structures, and bridge inspection services.

Markosky is a Woman-Owned Business Enterprise certified as a DBE in Ohio. Established in 1999, we have 25+ years of experience providing engineering, environmental and inspection services to public and private clients in the mid-Atlantic region.

PAST PERFORMANCE

A-1 Pipeline MP 226.2 Slide Stabilization

Client: Confidential Energy Client

Services

- ❖ Environmental Permitting
- ❖ Wetland / Stream Delineations
- ❖ Prepared/obtained Nationwide Permit 33

PA Statewide Rapid Bridge Replacements

Client: HDR Engineering, Inc.

Services

- ❖ Complete structure site design
- ❖ Bridge, roadway, traffic control, right-of-way, construction support
- ❖ Design management

New Kensington Bridge Preservation

Client: PennDOT District 11-0

Services

- ❖ Prime consultant – 14 span structure
- ❖ Preservation inspection
- ❖ Repair quantities and costs
- ❖ TS&L, utility coordination, public involvement

PA 756 Roadway Safety Study

Client: PennDOT District 9-0

Services

- ❖ Evaluated crash data, performed traffic counts and analysis, highway safety manual analysis, evaluated roadway geometry
- ❖ Identified environmental constraints
